

Basic Information

Project full title: Creating synergies between research infrastructures to stimulate innovation in the cross-border region

Acronym: RIAT-CZ

Duration: 1st September 2016 – 31st August 2019

Main Project goal: To prepare and validate a sustainable model of cross-border collaboration of research infrastructures (RI) in the field of Biotechnology and Nanotechnology that will ensure:

- Effective exploitation of complementary equipment and expertise,
- Accessibility and promotion of the cross-border RI for regional users, both academic and industrial.

Specific goals

1. *Improved knowledge on managing RI and expertise in providing services*
 - Through seminars, workshops and staff exchanges of the project partners
2. *Innovation of services through joint use of cross-border complementary equipment*
 - Pilot projects leading to improvement or development of new...
