

Advanced Functional Imaging Workshop

Wednesday
May
30

room 211, building A35
CEITEC MU, Brno

Are you having interesting biological problem and need to demonstrate and/or functionally characterize the studied phenomenon in living cells?

Are you working with plant or animal systems?

Do you do the curiosity-driven fundamental or applied research and development?

10.45

Jan Hejátko: **Welcome**

11.00 - 12.00

Kareem Elsayad: **Beyond Conventional Optical Microscopy**

12.30 - 13.30

Aswathy Jayasree: **FLIM-Based Functional Imaging**

13.30

Visit of [CELLIM CF](#)/Demonstration of FLIM Microscope

Main workshop goals:

- Providing you with the **recent advances in optical microscopy techniques for functional imaging**, available both in Vienna and in Brno via services/collaboration provided by **VBCF/CEITEC**, respectively
- **Highlighting practical aspects**, discussion on your problems/needs will be highly welcome

More information is [HERE](#).
