

SOCRATIVE

https://www.socrative.com/

What is it?

An online tool for getting a feedback from your students immediately – ideal for online quizzes or simple questions.

What do we need to use it?

E-mail address.

How to use it?

At first you need to sign up and create your account at https://www.socrative.com/. Click Login (1) and choose the last option Sign up now! (2). Fill in your name, password and your e-mail address. Confirm all these details by clicking the button Next (3).

To finish your registration please provide the details of your country, school, your job (4). Choose the Account type - FREE (5). Finish this step by clicking OK in the next window (6).

How can you create a new quiz for your students? Go to *Quizzes* tab(7) and choose the option *Create New* (8).

Give your quiz a title and you are ready to create the questions. You can use 3 types of questions - *Multiple Choice, Short Answer* and *True / False* (valid / invalid statement). Once you are happy with your set of questions you can save the quiz by clicking the button *Save and Exit*. (9)

The next step is to give your virtual room a name of your choice. This is the only piece of information your students need to know. Go to *Rooms* tab and by clicking the blue pencil you can rename your room (10).

How to launch the test? Go to *Launch* tab and choose *Quiz*. Pick the right quiz (that you have already prepared) and choose *Next*. Now decide which method of delivering the quiz you would like to use – *Instant Feedback* (students are not allowed to go back to the questions nor change their answers), *Open Navigation* (students can go through the questions as they wish and they can change their answers) or *Teacher Paced* (teacher controls everything). You can also select additional settings at each method: *Require Names* (student fills in his/her name), *Shuffle Questions* (random order of questions), *Shuffle Answers* (random order of answers), *Show Question Feedback*, *Show Final Score*, *One Attempt*. To launch the quiz just click *Start* (11).

Your quiz is now online and your students can begin the test. At the web address https://www.socrative.com/ they choose Login – Student Login and fill in the name of your virtual room (12). Next they write their names (if needed) and continue to fill in the quiz. You as a teacher can simultaneously watch their progress on the Results tab. If you decide you can finish sharing the test by clicking on Finish. All of the students answers are archived and can be found on the Reports tab.
