## Language

In order to meet the international character of the project, we decided to hold the event in English. Shorter parts in German and Czech will be translated by colleagues or together.

## Special request

I have a request to everyone: Please think about two suggestions for our brainstorming concerning the following:

- What would be an **effective measure** to protect the freshwater pearl mussel/reduce erosion/reduce contaminants/improve the flood protection/... in the Malše?
- What would be a **creative/unusual/new/... measure** to protect the freshwater pearl mussel/reduce erosion/reduce contaminants/improve the flood protection/... in the Malše?

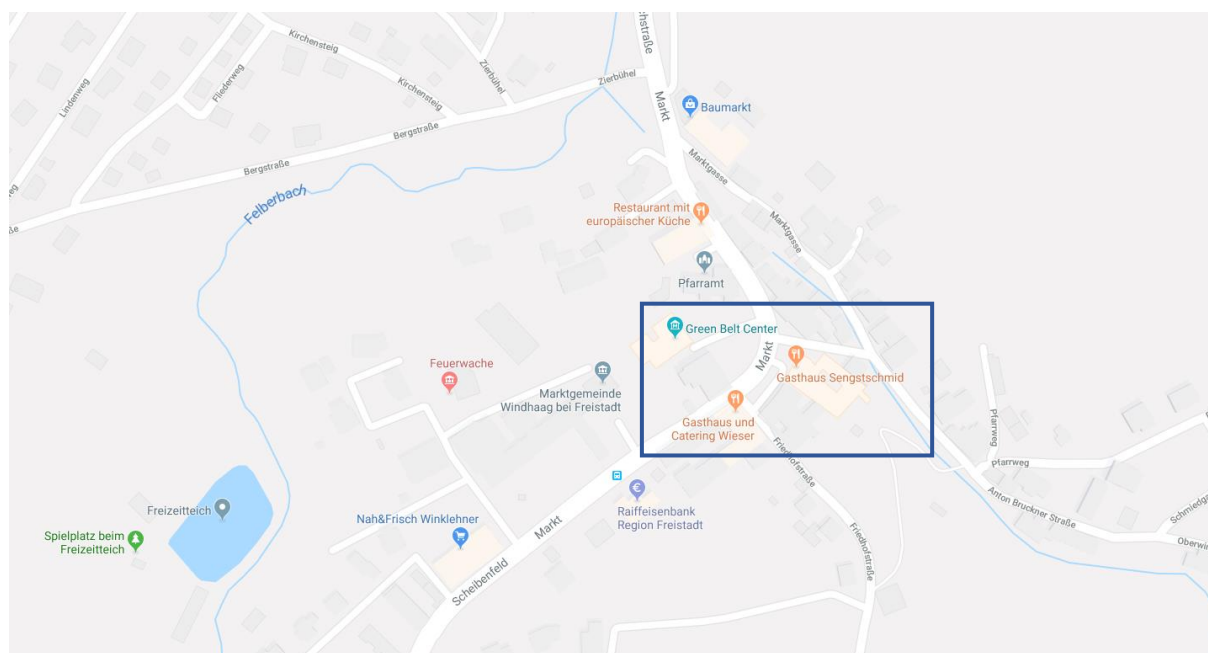

We will collect the answers before midday to get a pool of measures for the management plan.

## Venue
